

# DDIN®

## PLASTIC END CAP HOOK

Sometimes when you create your own solution to a problem the solution is so good you just have to share it, that's how we created the DN2X4PECH Plastic End Cap Hook. We were taking a lot of time to cut notches into 2x4s to store hot arms in our DNS-10 and DNS-11 baskets. That's when we came up with the idea for the DN2X4PECH. By screwing this cap on the end of a standard 2x4 we had a support arm to neatly store the hot arms in our baskets. You can buy the hooks separately or buy the entire assembly for one low price.

NOTE: Four support assemblies are needed for a basket of 25 hot arms. FITS: DNS-10 & DNS-11 Wire Baskets

- Neatly stores hot arms in a DNS10 or DNS11 wire basket
- Screws onto the end of a standard 2x4 (can be cut to desired length)
- Sold separately or assembled to fit DDIN wire baskets
- Four (4) needed for a basket carrying (25) hot arms

PART #	DESCRIPTION	SIZE	WEIGHT
DN2X4PECH	Hook Only	7 3/4"	.65 lb.
DN2X4SUPPORT	Assembly	52"	4 lbs.
