## RIGGING BLOCK

## THE GOLD STANDARD

The DDIN DNRB-6 sets a new standard for Rigging Blocks. This block's double-raced bearings and precision machined parts reduces side-to-side play and with a Working Load Limit of 5,000 lbs (at a 5:1 design factor) this block is ASME B30 Compliant. Each block is proof tested and serialized for traceability. Once you use this block you won't want to use any other.

For more information or to buy the DNRB-6 scan the QR code:

PART #	SHEAVE	ROPE CAPACITY	WLL	WEIGHT
DNRB-6	6"	5/8"	1000 lbs.	15 lbs.
