

EXTENSION ARM SCREWS

Designed with linemen in mind, the new DDIN Extension Arm Screw includes a sliding T-bar style head for increased leverage and speed when attaching or removing extension arms. It allows linemen to tighten and loosen the screw by hand without the need for an additional tool to tighten eye bolts.

- Compatible with both Hastings and AB Chance Extension Arms
- Made from high-quality steel with a unique plating to ensure smooth and rust-free operation
- Comes complete with Hammer Lock Retaining Pins for easy replacement
- Exclusive captive Sliding T-Bar makes for quick and easy installation by hand
- Should your application require more torque, the convenient 3/4" hex end will make quick work of any installation

SEE HOW IT WORKS!

PART #	COMPATIBILITY	COMPATIBLE PART NUMBERS	WEIGHT
DNCS	AB Chance	H480072, H480060, and H480092	0.4 lb.
